

Kimberly Sullivan
Front Desk Administrator

Kimberly is a student at Boise State University working towards her Bachelor's Degree in Environmental Studies. She became inspired by the study her senior year of high school after taking an AP Environmental Studies course that taught her about the intricate relationship between human systems and natural systems.

She loves getting to know people. Before her position as the Office Administrator for Noble Intent, Kimberly worked as the Customer Service Supervisor at Albertsons for 6 years. During this time she created strong bonds with many of her store regulars and gained lifelong friendships.

In her free time, she enjoys venturing around outdoors with her girlfriend and her two dogs Augie and Daisy, goofing off with her siblings who happen to be her best friends, or working on art while listening to some good tunes.
